Safe Routes to School Workshop with National Expert Mark Fenton Registration Deadline is April 23rd

County of Shasta

First 5 Shasta

SHASTA COUNTY – National Safe Routes to School expert Mark Fenton will facilitate a free workshop on May 7th in Shasta Lake. This interactive workshop will cover best practices and creative models for getting more kids safely walking and biking to school more often.

McConnell
Foundation

Participants will also learn about local resources and the five E's of successful Safe Routes to School efforts. Participants may register as individuals or as part of a school team that includes a combination of parents, school officials, teachers, transportation staff, crossing-guards, city planners, engineers and/or neighborhood volunteers. Register by April 23rd by calling 245-6457.

District

Shasta College

Mark Fenton is a high-energy and entertaining author and national consultant. He worked with the University of South Carolina's Pedestrian and Bicycle Information Center to develop the national Safe Routes to School curriculum. With engineering degrees from Massachusetts Institute of Technology and insight into successes from across the nation, Fenton provides innovative solutions to get more students walking and bicycling safely.
