## WHY YOU SHOULD BUY FRESH

### YOU'LL STRENGTHEN YOUR LOCAL ECONOMY

Buying food from your local farmer keeps your dollars circulating in your community. Getting to know the farmer who grows your food builds relationships based on trust, understanding and the foundation of a strong community.

### YOU'LL SUPPORT ENDANGERED FAMILY FARMS

There's never been a more critical time than now to support your farming neighbors. With each food purchase, you will ensure that more of your money supports the local farmers.

### YOU'LL PROTECT THE ENVIRONMENT

Local food doesn't have to travel far. This reduces your carbon footprint and uses no packing materials. Buying local food also helps to make farming more profitable and selling farmland for development less attractive.

### YOU'LL GET SUPERB FRESHNESS AND TASTE

Local food is fresher and tastes better than food shipped long distances from other towns, states or countries. Local farmers can offer a variety of produce. The freshest and tastiest produce is not shipped and has a longer shelf life.

### BUYING LOCAL IS EASY

Just go to our website to find all our local farmers. There are a variety of farmers to choose from, with an assortment of fresh fruits, vegetables, meats and nuts.
