6. Next, you will join your workplace. Make sure you ask your "Workplace Champion" or leader, what your exact workplace name is called on Love to Ride so you join the correct team.

If you do not have a workplace, register as an individual and 'join a group or club' later if you would like. Steps to do this are below!

**If you would like to be your workplace 'Champion' or team leader, click "Register your local office." This creates a new workplace and should be done if your workplace is not already registered.

7. If you are a part of a smaller department, feel free to choose your department from the dropdown menu or register a new department.
Departments do not compete against each other, they are just a way to categorize your workplace.
The most important part is to join a workplace so you can compete in the challenge against other workplaces.
Click 'Join' or 'Skip'

On the next page, complete the quick survey and click 'Finish Survey.'

8. Now that you are registered and can see your profile, you will want to make sure that the gray box on the right side of your profile states **that you and your company are registered for Cycle September 2021!** Feel free to upload a profile photo, update your reason for riding, and connect with an app so your rides are logged automatically.

If you do not want to connect with an app, you will need to log each ride manually on your profile after you finish each ride.

If you connect with an app and the ride information does not sync correctly, you can adjust information on your Love to ride profile manually as well.

2. Register a club or group and answer prompted questions or join an existing one.

Clubs/Groups are different than Workplaces. Workplaces are the only ones earning **points** during Cycle September and are competing against other workplaces of similar sizes. Each day you ride your bike earns your workplace 10 points. Each person you encourage to sign up and ride earns your workplace 50 points (for experienced riders) or 100 points (for new riders).

Clubs and Groups can also compete against each other, but they are competing for miles, not points. Students signing up with their school should join a club/group and search for their existing school or create a new group to get their school signed up.

Simply being a part of the Love to Ride platform and riding during Bike Month will enter you in as an individual to win weekly prizes and final prizes. The more rides you log (of at least 10 minutes/1 mile), the more times your name is entered in drawings to win prizes!

You *can* be part of a workplace AND a club/group because they are not competing against each other.
