

Better bikeways, trails, walkable cities and vibrant public places

What We Offer for active living activities - in May. And all year.

★ **Wide-ranging collaboration - All livable community groups and services**

Shasta Living Streets manages the Shasta Bike Depot to serve all types of active living activities – bike, walk, transit – for commutes and visitors. We provide amenities and services on an ongoing basis, every month, and are growing these programs to benefit our community.

We seek to include and collaborate with other organizations and groups as we are able, in ways that work for them and build active living excellence in our community – that’s our mission. We reach out and connect with partners and local groups about this as part of our work. In the Depot we have: the annual award for the **Shasta Wheelmen**, the bike park map from **Redding Trail Alliance**, info about **RABA** and **SRTA** transit services, promotions from **HHSA/Healthy Shasta**, information about the **California Bicycle Coalition**, **American Trails**, the **Great Shasta Rail Trail**, and **Adventure Cycling**. The **Trails and Bikeways Council**, **Redding GIS Group**, **Whiskeytown NPS** have held meetings at the Depot. We provide our bike fleet for free for use and trainings by **City of Redding**, **Caltrans**, **SRTA**.

★ **Pick-up / Drop-off downtown space**

We offer this space in the heart of our city, and along the new trail – as a place where people can pick-up or drop off materials for events: for public riding or walking challenges, or other bike/walk/transit activities. As we have done in the past - we can discuss and maybe set special times or pick-up events that might work best for programs.

★ **Bike Valet. Yes please!**

We want to provide bike valet services at as many events and for as many businesses as possible. *Why?* Reliable, safe bike parking makes biking more convenient for everyone. We have built a trusted service that people rely upon and we are expanding. Per best practice and (hard) lessons from many other communities - we offer one or two paid staff: providing security, managing volunteers. We have a minimal charge for this service to cover costs.

★ **Space for bike, walk, livable community events**

We offer space at the warehouse and courtyard in Downtown for events and activities. We are set-up for events large and small.

Shasta Bike Depot – New building Spring/Summer 2022

We are working with teams and consultants to build-out our new space, we *hope* will be nearing completion in May. We will have activities and events as we get closer – but we cannot say what or when, it’s not prudent for us to guess. We can give you updates as construction proceeds.

Downtown Bikeshare – Announcements Spring 2022, launching later

We are excited to be working with teams and consultants to launch a bikeshare program, and we may have announcements in May 2022 – we expect to launch the system later.
